Take-Off Tire Procedures Local Racing at Nashville Fairgrounds Speedway 2021

Limited Late Models, Street Stocks, Pure Stocks must compete on takeoff tires purchased from Nashville Fairgrounds Speedway through the tire draw process in 2021.

Nashville Fairgrounds Speedway approved competition tires for 2021 are: Hoosier Race Tire F45 and F50. Only F45s may be used on the left side of the car and only F50s may be used on the right side of the car.

Teams must race on the same set of tires used for qualifying.

Tire Draw Process: Team may only draw for one set of six race tires per race. Each set will have three Hoosier F45s and three Hoosier F50s. Team may only replace a drawn for tire if the original tire is damaged and the replacement has been approved by an NFS Tire Official. The approved replacement tire shall be randomly selected.

Use of tire softening or altering agents are not permitted. Tire inspection and the use of standard lab testing procedures will be performed.

Any attempts to circumvent the Tire Procedures may result in disqualification, fine, and/or suspension.
